Available colours: stainless steel

The dehydrator machine for raw food snack-making. The compactly designed Wartmann WM-2006 DH dehydrator is ideal for use in smaller kitchens. Yet this dehydrator performs just as well as a larger model when it comes to quality. With its 100% stainless steel housing and six dehydration racks, this appliance is both sturdy and easy to handle while offering nearly 0.6 square meters of dehydration area. A whisper-quiet fan spares you of annoying extra kitchen noise. Horizontal air flow yields even dehydration across all six rack levels. Highly user-friendly touch control panel with on/off switch, timer (selectable dehydration times ranging from 30 minutes up to 72 hours), temperature control (from 25°C), up/down adjustment buttons and an LED display – all you need for a solid basic dehydrator machine. The appliance automatically stops at the end of the set dehydration time. A glass-windowed door affords a convenient view of the dehydrating foods.

The compelling features of the Wartmann WM-2006 DH:

- Compactly built to save space
- Digital temperature control from 25°C
- Timer from 0.5 to 72 hours
- Stainless steel outside and in
- Six stainless steel grille racks
- Uniform horizontal airflow
- Stainless steel crumb tray and smooth surfaces for easy cleaning
- Glass-windowed door
