Product data

Item no.	51700SI/51700
EAN	1 00374160 82273/7 374160 82282
Housing material	BPA-free* plastic
Screw press material	Ultem
Functionalities	Juicing, homogenising, puréeing
Special uses	Makes juice, nut butters, sorbet, ice cream, pasta, mush
Control panel	-
Attachments	4 pasta attachments, 2 grissini attachments
Speed	80 rpms
Dimensions WxHxD	19 x 40 x 33 cm
Weight	6.5 kg
Motor capacity	200 watts
Voltage	220 V
Warranty (non-commercial use)	5 years
Certified quality	BPA-free*, 

Available colours: 8227: Silver, 8228: Chrome

The Omega Juicers 8227/8228: gentle juicing, puréeing and homogenising via 2-step system. The food item for pressing first goes through a chopper to increase pressing surface, then the robust screw press squeezes out the fresh, flavourful content - without whirling it around and damaging it. This horizontal juicer gently presses the vitamins, minerals and fibre out of fruits & vegetables, grasses, leaves and herbs at a slow 80 revolutions per minute. Yet the 8227/8228 can do even more, coming with a wide range of accessories for making pasta, mush, nut butters, and sorbet/water ice.

The successor model to the 8226 comes with an improved sieve and has an even more robust filler neck, plus an adjustable pomace outlet for maximising juice yield. A slow juicer that does the job thoroughly ... and quickly after all. The appliance yields juice of a velvety consistency that stays homogenised much longer. Just look at the dry, firm pomace automatically ejected from the outlet to see how efficiently it works. The device's superb value for the money remains unchanged however - and the easy cleaning!
