## Omega Juicers® VSJ843

### Included items:

- Vertical slow juicer
- Tamper
- Fine juicing sieve
- Coarse juicing sieve
- Sieve scraper with silicone wipers
- Juice catch with lid
- Pomace catch
- Cleaning brush
- User manual

### Product data:

Item no.	53400
EAN	737416084385
Housing material	Plastic
Screw press material	Ultem
Juice catch volume	-
Functionalities	Juicing, homogenising
Control panel	-
Speed	43 revolutions per minute
Special uses	Makes juices, purees and nut smoothies
Included	Juice outlet closure for juice mixing and easier cleaning
Appliance dimensions (W x D x H)	22.9 x 15.3 x 40.7 cm
Capacity	150 W
Voltage	230 V
Weight	6.4 kg
Warranty (non-commercial use)	10 years
Certified quality	BPA-free*, 

Available colours: Silver

The shapely **Omega Juicers® VSJ843** is a high-performance appliance that operates at a very low 43 revolutions per minute. Running at low rpms greatly reduces oxygen mix-in. This affords maximum nutrient preservation while allowing flavour to optimally unfold, using a redesigned screw press with double blade.

The space-saving vertical Omega Juicers® appliance for flavour-optimal juicing and ingredient processing for fine nut and grain smoothies. With conventional low-rpm juicers, the screw presses are arranged horizontally, taking up a lot of space. The Omega Juicers® VSJ843 however has a double-blade press screw positioned vertically, making the appliance highly compact. In addition to soft fruit the screw press can also handle firm and long-fibre vegetables like celery and baby spinach. The expelled juice is pressed through the fine sieve. For a thicker juice you can use the coarse juicing sieve, which is also best for soft fruits. The appliance has a highly practical juice outlet closure that allows mixing of the juice during pressing when shut for a bolder taste. The closure makes appliance cleaning easier as well.
