Available accessory:

- Drying sheets, item no. 56329

Product data

Item no.	56705
EAN	8 718862 700977
Housing material	Stainless steel
Rack material	Stainless steel
Crumb tray material	BPA-free* plastic
Dehydration area	1.1 sqm
Functionalities	Food dehydration, preparation
Drying system	Horizontal
Display	Digital; up to 72 hours continuous operation
Grille racks	10 racks: 295 x 370 mm
Rack load capacity	Max. 1 kg
Dimensions WxHxD	470 x 370 x 330 mm
Weight	9.6 kg
Motor capacity	800 watts
Voltage	220-240 V
Warranty (non-commercial use)	2 years
Certified quality	BPA-free*, 

Available colours: stainless steel

The 10-rack Wartmann WM-1902 DH dehydrator is a nearly all-stainless steel appliance that delivers terrific dehydration results and optimal value for the money. Per cycle the appliance can dehydrate up to 10 kilograms (22 lbs.) of food. Each rack can hold up to 1 kg. The dehydrator gently dries fresh fruit and vegetables. Ideal for making fruit leathers, dried fruit and crackers ... also convenient for keeping foods warm. Gentle food preservation is trendy, in line with the 'NO WASTE' movement. The quality of such self-dried foods is simply unavailable in stores.

The powerful yet quiet fan on the back of the Wartmann dehydrator provides for horizontal air flow across all 10 racks, ensuring completely uniform food dehydration. Use the well-organized control panel to pre-set the desired temperature and drying time. The selectable drying temperature range is 35-80 C (95-176 F). The selectable operation time range via the built-in timer is 30 minutes to 72 hours.

The crumb tray and control panel are made of BPA-free plastic; the door viewing window is of shatter-proof glass. The racks and crumb tray are dishwasher-safe.

Optional accessory: drying sheets made of BPA-free plastic (item no. 56413). These drying sheets are useful when dehydrating drip-heavy foods like tomato and mango, keeping the racks themselves clean. The sheets are also advisable for fruit leathers, dried fruit, crackers and herb drying, as they keep dehydrated foods from sticking to the racks and prevent bits from falling through.

*All food-contacting parts BPA-free.
